
May 12, 2021

Hello Green County Officials,

As you know, Green County communities will be receiving funds through the American Rescue Plan. We have developed a survey to help inform local decision-makers on how to approach making decisions for using the funds most effectively. The survey can be found here:

https://uwmadison.co1.qualtrics.com/jfe/form/SV_3IB53XoBL10cSmq

This survey is open to all who live and/or work in Green County as well as families whose children attend school in Green county. We ask that you also encourage your constituents and contacts to fill out the survey. As you reach out to your constituents and community members, please let them know 1) the survey is coming, 2) information about the American Rescue Plan (and rules about how the money can be used) is still coming out, and 3) because of the longer time frame, there is time available for planning.

Process

- **Today:** The survey will be sent to all towns, villages, cities and school districts in Green County. Please forward the survey to your constituents and community members who live and/or work in Green county, including Green county school districts.
- **Sunday, June 20:** The final day survey responses will be received. (The survey will close at midnight.)
- **Late July:** Each municipality/school district will receive all responses, as well as specific responses from your district. *(We will remove names and email addresses to allow for anonymity. Names and email addresses are being collected. This way if people want invitations to a potential community educational session, etc, their contact information is available.)*
- **Late summer 2021:** Based on survey responses, we may work to co-facilitate a discussion regarding education, collaboration, and/or partnerships to move forward.

Additionally, we have developed a webpage on the Extension Green County website to provide additional information about the American Rescue Plan. Visit <https://green.extension.wisc.edu/> for more information. Please do not hesitate to contact us with any questions about this community survey.

Sincerely,

Victoria Solomon
